Responsible gaming policy statement

Yaralla Sports Club is a leader in the provision of Gaming Entertainment to its patrons.

As a responsible member of the community the Club recognises its obligations in providing Gaming Entertainment that does not detract from the welfare of its patrons. In this regard the Club is committed to being a responsible provider of Gaming Services.

The Club recognises that a small proportion of patrons will be or will become problem gamblers. We strive to understand problem gambling and will seek to prevent abuse of Gaming Entertainment and to provide support for the treatment of gambling addiction.

For most of us, gambling is simply an enjoyable recreational activity that we participate in as a social form of entertainment.

For some however, gambling may become an addiction that can ruin their lives. For these few, the simple entertainment and social attraction of gambling may become a problem.

This compulsion to gamble can result in the person spending more on their gambling habit than they can afford, which may lead to the loss of money or assets, the indignity of having property repossessed or eviction from their homes.

Problem gambling may also result in the deterioration of personal and other relationships, the break-up of marriages and the loss of employment. Emotional stress can also lead to the deterioration of the person's health.

For people with such problems, confidential and sympathetic help is available from a number of sources:
